

WORKSHOP - How to use **Thinking Governance**

This two-hour workshop gives an overview of what the **Thinking Governance** programme is, how it works and how it can transform the vision for a school or a MAT.

It is aimed at governors of a school, directors/trustees of a MAT or education officers of a diocese.

Customised for each group's specific context, the workshop shows how to use the resource for the highest possible impact.

All **Thinking Governance** workshops are delivered by Mark Craig, who wrote and developed the programme for the Church of England Education Office, and the 4700 schools which it oversees.
