

## WORKSHOP - **Thinking Governance** for your school or MAT

This full day (six hour) workshop delivers the full **Thinking Governance** programme for a school or a MAT. All four modules are covered, and the outcome of the day is a radically-new strategic plan for the school or MAT, with transformational potential.

It is aimed at governors and senior leaders of a school, or directors/trustees of a MAT.

The MAT version is adapted from the core version, to align the content fully for directors/trustees

In each case, the workshop delivers the full **Thinking Governance** programme, and ends with a fully-developed, new strategic plan for the school or MAT.

All **Thinking Governance** workshops are delivered by Mark Craig, who created and developed the programme for the Church of England Education Office and the 4700 schools it oversees.

The programme works equally well for non-Church schools, and Mark has significant experience in customising it for a variety of contexts, including maintained schools.

To reduce the cost per school, it is possible to run the workshop for two schools simultaneously, with up to 12 people from each school. In that case, each school emerges with its own distinct, radically-new strategic plan.
